

OUR STORY

Tradespeoplehub began as a vision to build an intuitive platform, backed by technology and human touch. We wanted a better platform, where tradespeople could not only find and manage jobs, but also get paid before the works starts. Based on this need and lack of a solution, we put a lot of thought into creating this perfect platform.

WHO ARE WE ?

We make the process of finding, managing and receiving work payment secure, seamless and stress-free.

Unlike directories, our platform is completely free. It's so much better than trade directories that require up to £1,000 membership fees without guarantee of works.

Our platform doesn't only bring tradespersons and homeowners together, it also ensures that both parties remain committed to their role and agreement.

Our milestone system also protects your interest and ensures that you can work with focus and confidence knowing that your payment is already made.
